Instrument Valves, Fittings
& Solutions

With a legacy of manufacturing Experience of 65+ years the brand Havi was launched in 2007 and has travelled long far and deep. The 4 guiding principles in this journey have been Engineering, R&D, Customer Centricity and above all Quality. A Company with its roots in Mumbai, a state of the art manufacturing Plant at Pune and Offices in the Middle East, plus a support and backing of well networked representatives and distributors in the Domestic as well as International Market. We are currently present in 25+ Countries and counting.

Our speciality lies in Instrumentation Valves, Fittings, Pre-Fabricated Hookups, DBB & SBB Valves, Sampling Systems & Custom Solutions for Instrumentation Applications along with Piping Accessories.

Our Value Principles and focused approach have helped us understand the needs of our Esteemed Customers and providing tailor made Customised, Engineering and Performance Solutions. Design Improvement, Value Engineering and Performance Consistency have been continuous and ongoing process and philosophy of HAVI.

Our State of the Art manufacturing Plant comprises of CNC, VMC Machines and SCADA based Testing Equipments which in turn helps us to precision Engineer our Product range catering to diversified industries such as Oil and Gas , Chemical, Railways, Automobiles, Fertilisers etc.

The heart and strength of our organisation lies in 172+ hardcore Engineering Specialists and Design Professionals working day and night for Delivering Innovations to our Customers. Our Team has been our Biggest strength.

The future will see us have our Concentration and Design Expertise to give cutting edge Hydrogen based Solutions to support the green revolution and make our Planet Earth a better place to live.

We thrive to make our presence felt in the Society through our Social Initiatives as a Reciprocation for the love and support that we have.

System Certifications

- ISO 9001
- ISO 14001
- ISO 45001
- 2014/68/EU - Module H & SEP

Product Certifications

- ASTM F 1387
- MSS SP 99
- API 607, 6FA
- TAT Certified Products
- FET Class A & B

Instrumentation Fittings

37 Deg Flare Fittings
